

## Spacer Pro™

### For Bracket Pro Series mount

#### Characteristics

- Lightweight
- Anodized coating
- Compact size
- Don't block the swivel base of 360° rotation
- Same holds
- Safe and Easy
- immediate access
- Match perfectly with mount system from us.

#### Application of use

- Crash cart
- Emergency work space
- Stretcher/cot
- Biomed shop

#### Advantages

- Minimum space for installation
- No additional holds
- Latex free
- Resist to the biological fluid
- Insensitive to rust
- 1 year full warranty
- Sodium resistant

Any medical equipment that has been inadequately installed in ambulances, helicopters and other emergency medical service vehicles (EMS) and crash carts, can potentially pose a serious risk or become dangerous in the event that the vehicle makes frequent or sudden stops, turns or rushed departures. This situation can result in damaged expensive medical equipment or even inflict injuries on a patient, ambulance personnel or clinic staff.

Our option mounts systems “**Spacer Pro™**” are designed for fast solution to raise or extend the surface base installation, with no interferences to the surface base. The features of this extension support are the very small size (weight), the perfect fit to the standard base, with aligned holds for less time for installation. They can be installed at the same position or area to secure the mount, and are offered at three (3) different heights or can be customized.

The mounting extensions offer different heights for universal or standard surface base. They have many characteristics; more specifically allow rotating up to 360 degrees with the base, fitting the shape and the holds for quick installation, without any compromise of using the surface base. The surface system extension will keep the features of the base and resist to an impact of many times the «G» Force, and drop accident situation.

To spare the expenses of costly repair or replacement of the equipment, and medical care and possible legal redress for injury, consider outfitting your crash cart, emergency workspace or biomed workshop with a deployment system for monitor and/or defibrillator.

**Technimount System Inc** sells, develops and commercialize deployment system for medical equipment that can be fit with different brand names of defibrillator, in hospital, EMS, or military environment.

For use with model **Technimount** mounts « **Bracket Pro Series™** »

## **TECHNICAL SPECIFICATIONS**

<b>Product name:</b>	<b>Spacer Pro</b>
<b>Compatibility model:</b>	Bracket Pro Serie – Standard or Universal model only
<b>Environment of use:</b>	EMS - Hospital – Clinic – Biomed shop – Military hospital -
<b>Material:</b>	Base: Aluminum high density w/ anodized process
<b>Temperature of use:</b>	- 35° C @ 45° C (Direct conduction)
<b>Impact Resistance<sup>1</sup>:</b>	<b>Drop test 1.5 M and Same as Bracket Pro model</b>
<b>Nbr of installation point:</b>	4 points under surface base aligned with the surface base
<b>Dimensions (both parts assy- overall):</b>	7-1/2" With. <b>X</b> 8" Depth. <b>X</b> 3/4" <b>Height depending.</b> (pc.)
<b>Rotation:</b>	Allows 360° degrees <b>with standard base</b>
<b>Features:</b>	Compatible with <b>Technimount universal surface base</b>
<b>Weight:</b>	Total: 1.25 lbs. – 1.45 lbs. (height depending)
<b>Options:</b>	Spacer (height extension mount 3/8", 1/2", 3/4" ) w/ std only
<b>Part number<sup>2</sup>:</b>	825-00-38 "Spacer Pro" – 3/8" height
<b>Part number:</b>	825-00-12 "Spacer Pro" – 1/2" height
<b>Part number:</b>	825-00-34 "Spacer Pro" – 3/4" height

*Installation suggested*
